The initial report was issued by the council January 15, 2021, and will be updated quarterly thereafter for one year following the termination of the COVID-19 disaster emergency under section 7301(c) (relating to general authority of Governor).

The PHC4, working in cooperation with the Hospital and Healthsystem Association of Pennsylvania (HAP), and input from their chief financial officer advisory group, developed a survey tool to collect COVID-19 expenses and revenue loss related data to satisfy requirements of Act 15 of 2020.

Independent hospitals and health care systems were asked to complete a COVID-19 survey for quarterly data and submit it to PHC4. Hospitals and health care systems were permitted to report as a system or individual hospital. Sixty-five percent responded to the third quarter 2021 COVID-19 survey.

COVID-19 Disaster Emergency Report Data Findings

Hospitals and health systems reported their July 2021 – September 2021 (Q3 2021) COVID-19 related expenses and revenue losses that were attributable to coronavirus and used to prevent, prepare for and respond to coronavirus. Submissions included health care systems and independent hospitals that may include all system hospitals, ambulatory surgery centers, physicians' practices, etc. The accuracy of the data is the responsibility of each hospital or health system respondent.

As part of this analysis, PHC4 also examined data from its hospital discharge database and compared the number of quarterly inpatient discharges and outpatient visits from Pennsylvania's general acute care hospitals (GAC) and ambulatory surgery centers (ASC) during 2021 to 2019.
