

TURNING HEALTH CARE CHANGE INTO HEALTH CARE OPPORTUNITY

The health care landscape has changed dramatically over the past few years. We're a company who understands and can help you navigate this change.

Why AmeriHealth Administrators?

The speed of change in the health care industry is expanding the definition of health care and redefining roles for traditional players. New and emerging technologies led by single point solution vendors, rising health care costs, the regulatory environment, and new entrants have many payers evaluating their options. This new reality inspired us to evaluate our entire infrastructure and work with our customers to ensure we have the capabilities necessary to help them address these new challenges.

How can AmeriHealth Administrators help you?

- **Self-funded health plan administration.** We offer a comprehensive yet tailored approach to self-funding health benefits for captives, consortiums, and branded and non-branded companies.
- **Niche market expertise.** We bring expertise in a variety of vertical markets. With our ability to customize our support, we can offer solutions as unique as the populations we serve.
- **Access to claims data gives you insight.** You need to know what is driving your health care costs. This data can help us identify plan design changes and targeted programs that may help control costs and help improve the health of enrolled members.
- **Paying claims when incurred can help your cash flow.** Paying claims when incurred rather than a monthly insurance premium can save you money and help with cash flow.
- **Customized plan design gives you flexibility.** Customized designs help you meet the specific demands of your members and your business objectives using multipronged strategies such as targeted programs and incentives.
- **Advanced health care benefits delivery platform.** Our infrastructure creates advanced communications and data exchange capabilities that make it easy to connect our systems to the ever-evolving world of health care.
- **Transformation through total cost of care.** Our comprehensive, member-centric clinical programs help identify and engage members to improve outcomes and positively affect the cost of care.

AmeriHealth Administrators' comprehensive yet tailored offerings may help improve health and control costs with:

- a consultative approach;
- a world-class customer experience;
- experienced health benefits professionals;
- detailed analytics;
- innovative Health Management Programs;
- extensive online tools and resources.

Connect with an AmeriHealth Administrators representative to learn more on how our products and services can help you capitalize on the changing health care landscape.

AmeriHealth Administrators does not provide legal or tax advice. Please consult with your legal/tax advisor regarding your legal and tax obligations with respect to a self-funded plan.
