

Your partner in health for pivotal moments

An all-in-one managed benefit offering timely care for family building and women’s health.

Progyny was designed to bridge gaps in care and coverage, providing a cohesive, integrated approach. By aligning traditionally fragmented areas of care, we are the only program that delivers an experience that’s high touch, connected, and managed by experts while fostering outcomes-focused care at every step.

Driving cohesive care through every stage of life:

Fertility & Family Building:

Our preconception program offers access to the nation’s top specialists, powered by equitable plan designs and timely, personalized care – fostering optimal outcomes a fully supported, inclusive member experiences.

Pregnancy & Postpartum:

Proactive clinical coaching and curriculum tailored to each stage of pregnancy and parenthood, addressing health risks and physical and emotional needs. Doula visits and 24/7 lactation support close care gaps, with client-specific leave and benefits navigation to reduce stress and improve return-to-work.

Parent & Child Wellbeing:

Dedicated support for parents, with expert guidance on child behavior and development, benefit and resource navigation, educational content and peer support for both personal well-being and family dynamics.

Menopause & Midlife Care:

With early education in perimenopause symptoms and access to menopause-specialized medical providers in all 50 states – for empowered, convenient, and evidence-based care.

Access to the largest managed network of fertility and women’s health specialists

Progyny manages the largest network of fertility and women’s health specialists, directly contracted and credentialed by Progyny. Our multi-disciplinary network of providers, including reproductive urologists, REIs, menopause providers, pelvic floor therapists, doulas and lactation consultants brings together high quality care while helping employers contain costs and drive outcomes-based care across the full spectrum of women’s and reproductive health. This approach to network management makes Progyny uniquely positioned to improve outcomes for patients and provide best in class reporting on outcomes to our clients.

An empowering member experience

Progyny offers an inclusive, culturally competent benefit that supports individuals on every journey, providing personalized 1:1 care, guidance and seamless pharmacy support. From the moment of enrollment, members are paired with a dedicated Patient Care Advocate (PCA)—a reproductive health expert, registered nurse, or fertility specialist—who provides tailored support and emotional guidance.

Our concierge-level support curates a personalized experience with:
